

DataSet

Date	26 June 2025
Team ID	LTVIP2025TMID31177
Project Name	To Supply Leftover Food to Poor

There is no external dataset used.

Data is created manually through forms and record creation in Salesforce via:

- Screen Flow input (Venue Form)

The image shows a screenshot of a Salesforce 'Venue Form' screen. The form is titled 'Venue Form' and contains several input fields. The first field is 'Venue Name', which is empty. The second field is 'email', which contains the text 'you@example.com'. The third field is 'Phone', which is empty. The fourth field is 'Venue Location', which is empty. The fifth field is 'Latitude', which is empty. The sixth field is 'longitude', which is empty. At the bottom right of the form, there is a blue button labeled 'Next'.

- Manual entry for Tasks, Volunteers, Drop-Off Points, etc.
