PROBLEM STATEMENTS

Date	24 June 2025
Team ID	LTVIP2025TMID31177
Project Name	To Supply Leftover Food to Poor

A problem statement is a clear, concise description of the issue or challenge that needs to be addressed. It defines the gap between the current state and the desired outcome and serves as the foundation for designing effective solutions.

Problem Statement-1

- **I am** a poor, hungry individual living on the streets.

- **I'm trying to** find safe and nutritious food for myself and my family.

- **But** I often find nothing or receive spoiled leftovers.

- **Because** there is no organized system to ensure leftover food reaches people like me safely.

- **Which makes me feel** helpless, ashamed, and forgotten.

Problem Statement-2

- **I am** a restaurant owner who wants to help the poor.

- **I'm trying to** donate leftover food at the end of each day.

- **But** I don't know where or how to donate it safely and legally.

- **Because** there's no convenient platform or assurance of food handling and liability.

- **Which makes me feel** frustrated and discouraged from helping.

Purpose of a Problem Statement:

- Guides the solution design
- Aligns team and stakeholders
- Helps measure success
- Justifies the need for the project
